Capability Statement: Risk Management

Enterprise & Project

pda has a proven track record in providing independent risk management consulting services; developing & tailoring enterprise risk frameworks, specializing in project risk management system implementation and workshop facilitation, with ISO 31000 principles at the core of all services.

pda commenced operation in 2005 and has been engaged principally in the mining, oil & gas and major project & asset infrastructure sectors, both nationally and internationally by government, client and contracting companies. *pda* has also been engaged to assist NFP organisations.

Jeff Jones, is the principal consultant of *pda*, and is committed to providing exceptional risk management consulting services. Jeff has 30 years' experience and demonstrable results including in major projects, an advisor role within owners project teams, and assessing strategic & operational risks through conducting over 150+ project reviews and audits and facilitation of over 300 risk workshops.

Recent completed risk management engagements include:

- Risk Advisor for Santos' \$19B GLNG project
- Implementation of ERM framework & software for Thies Pty Ltd
- ERM framework review for BlueCare Property Services
- Comprehensive risk workshop program for WICET project stages
- Yancoal Coal Project concept stage risk assessments
- Risk Assessment updates for PNG Ok Tedi Mine Expansion Project
- HAZID and HAZOP Revalidation workshops for Saudi Aramco
- Qualitative & Quantitative risk assessments for BG QC LNG project
- Board & operational ERM implementation & training for Aftercare

Jeff is a Fellow of the Risk Management Institution of Australasia, a Certified Practising Risk Manager (CPRM), Vice-President of Engineers Australia QLD Risk Engineering Society and highly regarded for risk management services by repeat business clients and respected peers alike.
