Proprietor of **pda**, Jeff Jones, has been involved in the liquid and gas petroleum pipeline industry since the late 80's. Jeff was Exxon trained as a multi-disciplined petroleum engineer in Esso/BHP's Bass Strait oil & gas fields obtaining significant upstream operating and project experience as an industry renowned Project, Facilities & Construction engineer.

Jeff's operational and project experience has been further solidified from 12 years with Thiess Pty Ltd; in Senior Project Manager roles for large complex infrastructure and pipeline projects, as Oil & Gas Proposals Manager for PT Thiess Indonesia and in a Thiess corporate role responsible for undertaking project reviews and development, implementation and support of management systems for operations & maintenance, projects and risk management.

Since 2005 Jeff has provided independent operational and project management services through **pda** to a variety of client & contracting organisations including the landmark Santos \$19B GLNG mega-project from concept through to implementation. Other recent O&G major clients have included BG-QGC, Origin Energy, Shell Australia and Saudi Aramco.

Jeff is recognized as competent and approved by state regulators and is regularly engaged to undertake periodic external Pipeline Management System audits. Jeff also combines many elements of his operating experience in providing effective Safety Management Studies and AS 2885 Risk Assessments for owners and operators of both gas and liquid petroleum pipelines. Pda has repeat engagements with many pipeline licensees and operators; including APA Group, Caltex Australia, EIM QLD, Multinet Gas, Shell Aviation Australia, Viva Energy and Elgas for both transmission and networks assets.

Jeff is an independent member of APGA and brings a wealth of successful project delivery and operating experience and has first-hand understanding of business drivers to allow **pda** to provide superior pipeline risk and assurance independent consulting services.
